TWO-YEAR INDEX

Volume 12—1980
Volume 13—1981

Author Index

A

Abboud, C. F. See Fode, N. C., *12:* 210
Adelstein, W. Chronic subdurals, *12:* 36
Allmond, B. J. Management of cervical and thoracic spine/cord injured patients, *13:* 97
Ambielli, M. P. Drug stop, *12:* 174, *13:* 334
Ambielli, M. P. Book review, *12:* 176
Anchie, T. I. Acoustic neuroma: a benign tumor, *12:* 11
Anchie, T. I. Plasmapheresis as a treatment for myasthenia gravis, *13:* 23
Arsenault, L. Primary spinal cord tumors: a review and case presentation of a patient with an intramedullary spinal cord neoplasm, *13:* 53

B

Bailey, L. See Neumann, D., *12:* 206
Barnett, D. C. and Hair, B. Use and effectiveness of transcutaneous electrical nerve stimulation in pain management, *13:* 323
Bassler, S. F. Development of a resource support system for nurses caring for spinal cord injured patients, *12:* 195
Bassler, S. F. Achieving continuity of care for the spinal cord injured patient through the problem-oriented approach, *13:* 61
Behrends, E. A. Intraoperative monitoring of cortical oxidative metabolism, *12:* 22
Bell, M. Editorial, *12:* 113, *13:* 47
Bell, M. A case study: astrocytoma of cord, *13:* 59
Black, F. O. See Tedesco, M. B., *12:* 2
Blanco, K. M. Acoustic neuroma: postoperative nursing care and rehabilitation, *13:* 153
Booth, K. Subclavian steal syndrome: treatment with proximal vertebral to common carotid artery transposition, *12:* 28
Bowens, B. Carpel tunnel syndrome, *13:* 129
Brand, K. P. Multiple sclerosis, adrenocorticotropic hormone, and nursing implications, *12:* 62
Bruya, M. A. Planned periods of rest in the intensive care unit; nursing care activities and intracranial pressure, *13:* 184

C

Calvin, R. P. Presidential message, *12:* 59
Clancey, J. See LoDolce, D., *12:* 187
Cobb, K. M. Nursing considerations in formulating a care plan, *13:* 252
Connolly, R. and Zewe, G. E. Update: head injuries, *13:* 195
Crabbe, R. A. Identification, implementation, and utilization of a research clinical specialist in a neuroscience setting, *13:* 142

D

DeJesus-Greenberg, D. A. Acute spinal cord injury and hyperbaric oxygen therapy: a new adjunct in management, *12:* 155
Donnelly, R. P., Greer, C. R., and Vreeland, O. H. Intraspinal cholesteatoma, *13:* 207
Doolittle, N. Research shorts, *12:* 108, *12:* 172, *12:* 217, *13:* 156
Dunsker, S. See Robb, D., *13:* 72

F

Fedun, P. C. Preoperative evaluation of patients undergoing microanastomosis for brain ischemia, *12:* 46
Feustel, D. Alterations in neuron innervation associated with spinal cord lesions, *13:* 48
Finch, K. Vasospasm secondary to subarachnoid hemorrhage: the current controversy, research, and nursing dilemmas, *12:* 199
Fode, N. C., Laws, E. R., Abboud, C. F., Randall, R. V., and Kempers, R. D. Prolactin secreting pituitary adenoma: a review and study of their implications for fertility in women, *12:* 210
Ford, J. See Quinn, A., *13:* 217

G

Gargan, R. Nursing management of the patient with meningeal carcinomatosis, *12:* 184
Gary, R. Cerebral vasospasm: process, trends, and interventions, *13:* 256
Gehrke, M. Identifying brain tumors, *12:* 90
Gerk, M. K. and Kassell, N. F. Cerebral vasospasm: update and implications, *12:* 66
Gideon, M. D. and Taylor, P. B. Kidney donation: care of the cadaver donor's family, *13:* 248
Goldberg, C. Resolution of an ethical issue in the hospitalized adult neurosurgical patient, *13:* 12
Greer, C. R. See Donnelly, R. P., *13:* 207
Guthrie, M. D. See Neatherlin, J. S., *13:* 146

H

Hamric, A. B. A teaching tool for spinal cord injured patients, *13:* 234
Hair, B. See Barnett, D. C., *13:* 323

Subject Index

A

Abscess
Brain, *13*(3): 123
Anastomosis, vascular
Preoperative evaluation for microanastomosis for brain ischemia, *12*(1): 46
Subclavian steal syndrome: treatment with proximal vertebral to common carotid artery transposition, *12*(1): 28
Anesthesia
Perioperative anesthetic management of patients operated in sitting position for posterior fossa tumors, *13*(4): 159
Aneurysms, cerebral
Research short: GI bleeding associated with ruptured aneurysms, *12*(2): 108
Arterial venous malformation
Research short: Microsurgery for cerebral arterial venous malformations, *12*(3): 172

B

Book reviews
Case Studies in Neurological Nursing, *12*(3): 176
Central Nervous System Pharmacology, *12*(3): 176
Head Injury, *12*(3): 176
Neuro Nursing, *12*(4): 218
Brain tumors
Acoustic Neuromas, *12*(1): 11
Acoustic Neuroma: an overview of the disorder and nursing care, *13*(4): 170
Acoustic Neuroma: postoperative nursing care and rehabilitation, *13*(3): 153
Current concepts of chemotherapy, *12*(2): 97
Epidemiology of primary brain tumors, *12*(3): 121
Identifying, *12*(2): 90, 1980, *12*(4): 203
Immunological aspects of malignant glial tumors, *12*(3): 161
Interstitial radiation for the treatment of brain tumors using the stereotactic method, *12*(3): 138
Nursing management of the patient with meningeal carcinomatosis, *12*(4): 184
Preoperative course of the brain tumor patient, *12*(1): 18
Prolactin producing pituitary adenomas, *13*(1): 15
Prolactin secreting adenoma: a review and study of their implications for fertility in women, *12*(4): 210
Research short
Clinical improvement with radiation therapy for brain metastases, *13*(3): 156
Psychological function of astrocytoma survivors, *12*(3): 172
Transsphenoidal hypophysectomy for pituitary tumors, *13*(3): 117
By-Pass surgery (See: Anastomosis, vascular)

C

Catheterization
Regaining urinary continence through intermittent catheterization, *12*(2): 73
Cerebral blood flow
Regional cerebral blood flow—a newer non-invasive neurodiagnostic technique, *13*(6): 286
Cerebral edema, *13*(2): 102
Certification Examination Candidates
1979 Candidates, *12*(2): 110
1980 Candidates, *12*(4): 220
1981 Candidates, *13*(6): 346
Cranial Nerves
Nursing care of the vestibular nerve section patient, *12*(1): 2

D

Drug Stop
Iatrogenic barbiturate coma in severe head injury, *13*(6): 344
Valproic Acid, *12*(3): 174

E

Editorial
A Formula for Nursing Care, *13*(6): 285
Neurosurgical nursing, *12*(1): 1
Nursing trends, *12*(3): 113
Past Editor, *13*(2): 47
Education
Principles of patient education for the patient with an altered neurological status, *12*(4): 179
Epilepsy
Identification and treatment of status epilepticus, *12*(2): 92
Ethics
Resolution of an ethical issue in the hospitalized adult neurosurgical patient, *12*(1): 13
Evoked potentials
Research short: The value of brain stem auditory evoked potentials in localizing brain stem lesions, *12*(4): 218

H

Headaches
Research short: What really causes the headaches of cerebrovascular disease, *12*(2): 108
The differential diagnosis of headache and its nursing management, *12*(4): 214
Head injury
Book review: *Head Injury*, *12*(3): 176
Brain injury and the family, *13*(4): 165
Complications associated with the use of megadose corticosteroids in head injured adults, *12*(3): 166
Outcome following head injury, *13*(4): 178
Research shorts:
Post traumatic amnesia and claims for compensation, *13*(3): 157
Prognosis of head injuries in the elderly, *12*(2): 108
The most common injuries from motorcycle accidents, *12*(2): 109
Update, *13*(4): 195
Hematomas

Chronic Subdurals, *12*(1): 36
Research short: Outcome of extradural hematomas with prolonged course, *13*(3): 156
Herniated disc (*See* Intervertebral Disc Herniation)
Hydrocephalus
Nursing care of the patient with hydrocephalus, *13*(6): 326
Research short: Chronic adult hydrocephalus vs active communicating hydrocephalus, *12*(2): 108

I

Intervertebral disc herniation
Gravity lumbar reduction, *13*(6): 299
Nursing care of the patient with recurrent back pain after discectomy, *13*(2): 77
Research short: Reasons why abnormal discs may not be found with surgical exploration for symptoms suggesting a herniated disc, *12*(2): 108
Intracranial pressure
Epidural intracranial pressure monitoring: theory and clinical application, *13*(5): 267
Increased intracranial pressure in the pediatric patient, *12*(1): 7
Intracranial hypertension: implications of research for nursing care, *12*(3): 145
Planned periods of rest in the intensive care unit: nursing care activities and intracranial pressure, *13*(4): 184
Research shorts:
Continuous ventricular fluid drainage improves the outcome in patients with increased intracranial pressure, *12*(1): 54
Reducing mortality of bacterial meningitis in children, *13*(3): 157
Volume pressure responses and compensatory reserve, *12*(4): 218
Significance of intracranial pressure waveforms, *13*(4): 202

K

Kidney donation
Care of the cadaver donor's family, *13*(5): 248

N

Neuroanatomy
Synaptic transmission within the central nervous system, *13*(3): 146
The forgotten cells of neurology: neuroglia, *12*(3): 114
Neurological disorders
A great nursing challenge: recognition and effective management of the patient with herpes simplex encephalitis, *13*(5): 220
A nurse's view: amyotropic lateral sclerosis, *13*(2): 89
Herpes encephalitis: a nursing challenge, *13*(1): 34
Motor neuron disease: amyotropic lateral sclerosis, *13*(2): 83
Multiple sclerosis, adrenocorticotropic hormone and nursing implications, *12*(2): 62
Overview of multiple sclerosis and nursing care, *13*(1): 28
Plasmapheresis as a treatment for myasthenia gravis, *13*(1): 23
Research short: Since levodopa, patients with Parkinson's disease live longer, *12*(1): 54
Survey of neurogenic bladder in multiple sclerosis, *13*(6): 337
Thymectomy: a recommended procedure for myasthenia gravis, *13*(5): 226
Neurosurgical nurse
Book reviews:
Case studies in Neurological Nursing, *12*(3): 176
Neuro Nursing, *12*(3): 176
Neurosurgery and the Clinical Team, 12(4): 218
Identification, implementation and utilization of a research clinical specialist in a neuroscience setting, *13*(3): 142
Operating room neurosurgical nursing role, *12*(3): 128
Nursing care
A great nursing challenge: recognition and effective management of the patient with herpes simplex encephalitis, *13*(5): 220
Are you a creative nurse, *13*(5): 239
Acoustic neuroma: an overview of the disorder and nursing care, *13*(4): 170
Acoustic neuroma: postoperative nursing care and rehabilitation, *13*(3): 153
Case of the long term comatose patient: a pilot study, *12*(3): 134
Families and feelings, *13*(4): 217
How can I reassure my patient if I have never been in surgery, *13*(4): 211
Nursing considerations in formulating a care plan, *13*(5): 252
Nursing management of diabetes insipidus, *13*(6): 313
Nursing care of the patient with hydrocephalus, *13*(6): 326
Nursing care of the patient with recurrent back pain after a discectomy, *13*(3): 77
Primary care nursing: the "how to" of transition, *13*(1): 7
Resolution of an ethical issue in the hospitalized adult neurosurgical patient *13*(1): 12
Sex and physical disability, *13*(3): 127
The effect of preoperative instruction on state anxiety, *13*(6): 318
The patient in a persistent vegetative state, *13*(5): 243
Vestibular nerve section patient, *12*(1): 2
Nursing diagnosis
Concept and application of, *12*(2): 76
Research short: How well do nurses think through their diagnoses, *12*(2): 109
Nutrition
Feeding the severely dysphagic patient, *12*(2): 102

O

Operative techniques
Carpal tunnel syndrome, *13*(3): 129
Cerebellar stimulation, *12*(1): 32
Commissurotomy: revival of surgery for relief of central and bilateral pain, *13*(3): 150
How can I reassure my patient if I have never been in surgery, *13*(4): 211
Intraoperative monitoring of cortical oxidative metabolism, *12*(1): 22
Intraspinal cholesteatoma, *13*(4): 207
Interstitial radiation for the treatment of brain tumors using the stereotactic method, *12*(3): 138

Research shorts:
Cerebro-spinal fluid shunt infections are related to the experience of the surgeon, *12*(3): 173
Evaluation of diencephalic damage in the early postoperative period, *12*(3): 172
Subclavian steal syndrome: treatment with proximal vertebral to common carotid artery transposition, *12*(1): 28
The patient undergoing craniofacial surgery: nursing assessment and intervention, *13*(1): 38
Thymectomy: a recommended procedure for myasthenia gravis, *13*(5): 226
Transsphenoidal hypophysectomy, *13*(6): 303
Transsphenoidal hypophysectomy for pituitary tumors, *13*(3): 117

P

Pediatrics
Increased intracranial pressure in the pediatric patient, *12*(1): 7
Myelomeningocele: a multidisciplinary problem, *13*(6): 333
Research short: Reducing mortality of bacterial meningitis in children, *13*(3): 157
Reye's syndrome, *12*(1): 15
Pharmacology
Alternate programs of steroid administration for patients on long-term therapy *12*(4): 187
Book review: *Central Nervous System Pharmacology*, *12*(3): 176
Current concepts of chemotherapy for brain tumors, *12*(2): 97
Complications associated with the use of megadose corticosteroids in head injured adults, *12*(3): 166
Drug Stop:
Iatrogenic barbiturate coma in severe head injury, *13*(6): 344
Valproic Acid, *12*(3): 174
Multiple sclerosis, adrenocorticotropic hormone and nursing implications, *12*(2): 62
Prolactin secreting pituitary adenoma: a review and study of their implications for fertility in women, *12*(4): 210
Research shorts:
Meningeal involvement in leukemia, *12*(3): 173
Propranolol and clonidine in migraine prophylaxis, *12*(4): 217
Saliva sampling in monitoring carbamazepine levels, *12*(4): 217
The effect of diazepam and desmethyldiazepam in spasticity and rigidity, *12*(4): 217
Vitamin E as an anticonvulsant, *12*(1): 54
Pituitary tumors
Prolactin producing pituitary adenomas, *13*(1): 15
Prolactin secreting adenoma: a review and study of their implications for fertility in women, *12*(4): 210
Transsphenoidal hypophysectomy, *13*(6): 303
Transsphenoidal hypophysectomy for pituitary tumors, *13*(3): 117
Poems
Silent Thoughts, *12*(2): 107
The Journey Back, *12*(4): 219
Why Not, *12*(3): 175
Presidential address
12(2): 59
13(5): 219
Procedures, nursing
Feeding the severely dysphagic patient, *12*(2): 102
Pulmonary edema, neurogenic
an overview, *12*(4): 206

R

Rehabilitation
Research Short: A hard hand positioning device, *13*(3): 157
Research
An introduction to nursing research, *13*(5): 265
A survey of research concerning the use and effectiveness of transcutaneous electrical nerve stimulation in pain management, *13*(6): 323
Compliance with therapeutic regimens: issues, answers and research questions, *13*(1): 1
Identification, implementation and utilization of a research clinical specialist in a neuroscience setting, *13*(3): 142
Intracranial hypertension: implications of research for nursing care, *12*(3): 145
Research shorts:
A hard hand positioning device, *13*(3): 157
Cerebro-spinal fluid shunt infections are related to experience of the surgeon, *12*(3): 173
Chronic adult hydrocephalus vs active communicating hydrocephalus, *12*(2): 108
Clinical improvement with radiation therapy for brain metastases, *13*(3): 156
Continuous ventricular fluid drainage improves the outcome in patients with increased intracranial pressure, *12*(1): 54
Evaluation of diencephalic damage in the early postoperative period, *12*(3): 172
GI bleeding associated with ruptured cerebral aneurysms, *12*(2): 108
Heavy drinking may contribute to thrombotic strokes in the young, *12*(1): 54
How well do nurses think through their diagnoses, *12*(2): 109
Illusions of amputation and phantom positioning in spinal cord injured patients, *12*(3): 173
Meningeal involvement in leukemia, *12*(3): 173
Microsurgery for cerebral arterial venous malformations, *12*(3): 172
Outcome of extradural hematomas with a prolonged course, *13*(3): 156
Post-traumatic amnesia and claims for compensation, *13*(3): 157
Prognosis of head injuries in the elderly, *12*(2): 108
Propranolol and clonidine in migraine prophylaxis, *12*(4): 217
Psychological function of astrocytoma survivors, *12*(3): 172
Reasons why abnormal discs may not be found with surgical exploration for symptoms suggesting a herniated disc, *12*(2): 108
Recovery after complete sensorimotor paralysis from cord

injury, *12*(2): 109
Reducing mortality of bacterial meningitis in children, *13*(3): 157
Saliva sampling in monitoring carbamazepine levels, *12*(4): 217
Since levodopa, patients with Parkinson's disease live longer, *12*(1): 54
The effect of diazepam and desmethyldiazepam in spasticity and rigidity, *12*(4): 217
The effect of subcutaneous heparin on the incidence of deep vein thrombosis in the stroke patient, *13*(3): 156
The most common injuries from motorcycle accidents, *12*(2): 109
The value of auditory evoked potentials in localizing brain stem lesions, *12*(4): 218
Type A behavior and cerebrovascular disease, *12*(3): 172
Vitamin E as an anticonvulsant, *12*(1): 54
Volume pressure responses and compensatory reserve, *12*(4): 218
Respiratory
A post-insertion protocol for management of the olympic tracheostomy button in neurosurgical patients, *13*(6): 294

S

Seizures (*See* Epilepsy)
Spinal cord injury
A teaching tool for spinal cord injured patients, *13*(5): 234
Achieving continuity of care for the spinal cord injured patient through the problem-oriented approach, *13*(2): 61
Acute spinal cord injury and hyperbaric oxygen therapy: a new adjunct in managtement, *12*(3): 155
Alterations in neuron innervation associated with spinal cord lesions, *13*(2): 48
Development of a resource support system for nurses caring for spinal cord injured patients, *12*(4): 195
Management of cervical and thoracic spine/cord injured patients, *13*(2): 97
Research Shorts:
Illusions of amputation and phantom positioning in spinal cord injured patients, *12*(3): 173
Understanding sexuality in spinal cord injury, *12*(2): 88
Spinal cord tumors
A case study: astrocytoma of cord, *13*(2): 59
Intraspinal cholesteatoma, *13*(4): 207
Primary spinal cord tumors: a review and case presentation of an intramedullary spinal neoplasm, *13*(2): 53
The insidious spinal cord tumor, *13*(1): 18
Stroke
An update on vascular disease, *12*(2): 81
Research shorts:
Thrombotic strokes associated with heavy drinking, *12*(1): 54
Transient global amnesia may indicate impending stroke, *12*(3): 173
The effect of subcutaneous heparin on the incidence of deep vein thrombosis in the stroke patient, *13*(3): 156
Type A behavior and cerebrovascular disease, *12*(3): 172

T

Trauma
A prospective study of patients with central nervous system trauma, *13*(3): 132
Research short: The most common injuries from motorcycle accidents, *12*(2): 109
Traction
Gravity lumbar reduction, *13*(6): 299

V

Vasospasm, cerebral
Cerebral vasospasm: process, trends and interventions, *13*(5): 256
Secondary to subarachnoid hemorrhage: the current controversy, research and nursing dilemmas, *12*(4): 199
Update and implications, *12*(2): 66
Vertebral disease
Cervical spondylosis, *13*(2): 72
